5. The only interest of the State in the project is in the acquisition of federal funds for the use and benefit of the City by reason of federal law and regulations under which funds for the project are authorized to be expended.

6. The City, in order to obtain federal funds for the design of the project, is willing to provide City funds to match federal funds in the ratio required or as finally fixed and determined by the City and FHWA.

THEREFORE, in consideration of the mutual covenants expressed herein, it is agreed as follows:

II. SCOPE OF WORK

1. The State shall submit a program containing the aforementioned project to FHWA with the recommendation that it be approved for construction.

a. If such project is approved for design by FHWA and the funds are available for construction of the project, the City with the aid and consent of the State and the FHWA will proceed to design the project, such project to be performed, completed, accepted and paid for in accordance with the requirements of the US Secretary of the Interior's "Standards for the Treatment of Historic Properties", and other applicable standards and guidelines. The State will enter into a Project Agreement with FHWA covering the work embraced in said design contract and will request the maximum federal funds available.

b. Should unforeseen conditions or circumstances increase the cost of said work required by a change in the extent or scope of the work called for in this agreement, the City shall be obligated to incur any expenditure in excess.

2. Prior to the commencement of design, the City shall set aside sufficient funds in the amount determined to be necessary to match federal funds in the ratio required.

3. Upon completion of design and construction, the City shall provide for, at its own cost and as an annual item in its budget, appropriate and proper maintenance of the structure.

a. In the event that the property is sold prior to the end of twenty (20) years from the date of this agreement, the City shall at that time record a covenant with the property deed which passes these requirements to the new owner, in order to ensure that the property is protected from historically unsympathetic changes. The City shall take appropriate measures to protect the property against willful damage and vandalism.

b. In the event the property is sold without a protective covenant recorded with the property deed, the City will reimburse the FHWA a pro-rata amount for each year, or fraction of a year, remaining in the twenty (20) year period.

4. The City shall allow public access to the structure and grounds during normal business hours, including, but not limited to, tours and announced public meetings.

5. The City will provide personnel to supervise design.

6. The City will complete the project in accordance with the requirements of the relevant State and federal statutes, rules, or regulations. In the event the City fails to comply with any relevant State or federal statutes, rules, or regulations, the City shall hold the State harmless from any claims or costs incurred by the State as a result of the City's failure to comply.

III. MISCELLANEOUS PROVISIONS

1. The State assumes no financial obligation or liability under this agreement. The City assumes full responsibility for the design, plans and specifications, reports, the engineering in connection therewith, cost over-runs and claims. It is understood and agreed that the State's participation is confined solely to securing federal aid; that any damages arising from carrying out, in any respect, the terms of this agreement or any modification thereof, shall be solely the liability of the City and that the City hereby agrees to save and hold harmless and indemnify from loss the State, any of its departments, agencies, officers or employees from any and all cost and/or damage incurred by any of the above and from any other damage to any person or property whatsoever, which is caused by any activity, condition, or event arising out of the performance or nonperformance of any provisions of this agreement by the State, any of its departments, agencies, officers and employees, the City, any of its agents, officers and employees, or any of its independent contractors. Costs incurred by the State, any of its departments, agencies, officers or employees shall include in the event of any action, court costs, expenses of litigation or attorneys' fees.

The cost of the design and engineering work covered by this agreement is to be borne by FHWA and City, each in the proportion prescribed or as fixed and determined by FHWA as stipulated in this agreement. Therefore, City agrees to furnish and provide the difference between the total cost of the work provided for in this agreement and the amount of federal aid received.
